SUMMARY

I want to be a part of an organization where I can contribute my knowledge and skills along with the Improvement of my knowledge and experience. I wish to contribute meaningfully to the growth and Success of the organization by undertaking challenging assignments and delivering timely result using My professional knowledge and skills.

TECHNICAL SKILLS

- **Development Tools:** Visual Studio Code, Jupyter Notebook.
- **Database:** MySQL, SQL.
- **Programming Languages:** Core Python.
- **Web Technology:** HTML, CSS.
- **Tools & Concepts:** SQL, DBMS, MS-Office, Power BI, Excel, Git, Github.
- **Core Skills :** Data Cleaning, Statistical Analysis
- **Soft Skills :** Leadership, Teamwork, Problem-Solving
- **Operating Systems:** Windows, Linux.

PROJECTS

Song Recommendation System Based on Emotions |

- Developed an AI chatbot that recommends songs based on user emotions, integrating natural language processing (NLP) and machine learning models. Built a neural network to detect emotions from text input and facial expression linked it with a curated music dataset for personalized recommendations. Implemented user interaction features like text-based and facial -based inputs, making the chatbot more engaging.
- Skills: Python, HTML, CSS, JavaScript, CNN, DeepFace Model, MySQL.
- [Link](#)

Transportation and Logistic Dashboard |

- Designed and developed an interactive dashboard to monitor and analyze logistics performance metrics. Implemented KPIs such as total shipments, average delivery time, shipment routes, and delivery success rate. Integrated pivot tables, slicers, and visualizations (bar, pie, and line charts) to provide actionable insights into shipment efficiency, route optimization, and customer satisfaction. Improved decision-making by enabling stakeholders to track real-time logistics operations and identify bottlenecks.
- Skills: Excel ,MySQL
